

Kitchen #: \_\_\_\_\_ Period: \_\_\_\_\_

## **Food borne Illness Research Project**

**Objective:** As a group, create PowerPoint slide (maximum of 2 slides) outlining information about a food borne illness, including how people become sick and ways of prevention. Each group will present their slide and findings to the class.

**Name of Illness:** \_\_\_\_\_

**Information that must be included on your slide and in your presentation – 10 pts:**

1. Name of the illness and the bacteria that causes the illness.
2. Incubation period (how long it takes to get the illness) and normal duration of the illness.
3. Symptoms of the illness.
4. Foods the illness came from.
5. Ways to prevent the illness (at least 2):
6. Research Sources:

**Job Assignments for each group member:**

**Presenter:** \_\_\_\_\_

**Slide Stylists:** \_\_\_\_\_

\_\_\_\_\_

**Secretary:** \_\_\_\_\_

**Materials Collector:** \_\_\_\_\_

*\*All group members are responsible to gather information.*

**Presentation 10 pts:** \_\_\_\_\_

**Creativity 5 pts:** \_\_\_\_\_

**Total Points 25:** \_\_\_\_\_
